IMPORTANT: The performance of many sports and recreation surfacing products can be influenced by changes to their thickness, density and other properties and by the manner in which they are installed. Reference should always be made to the Laboratory Report relating to this Certificate, to ensure relevance to the intended situation. The Laboratory Report to which this Certificate relates is numbered:

T-0201 dated 6th August 1999

CST is a member of the International Association for Sports Surface Sciences (ISSS) and is the only U.K. laboratory formally accredited by the International Amateur Athletic Federation (IAAF), the Fédération Internationale de Hockey (FIH), and the World Bowls Board (WBB) for the testing of products to their specifications.
