

# ARTIFICIAL LANDSCAPE GRASS

...for gardens, patios and parks

Artificial landscape grass provides a natural, 'just-mown', all-green looking surface for lawns and patios.

Artificial landscape grass is permeable, ensuring that lawns look perfectly manicured any time of the year. It also requires very little maintenance, so there is no need to water, weed, or mow.

“ We are delighted with the work carried out by DCM. The installers remained polite, courteous and worked very hard.

We received prompt, courteous responses at every stage of the procurement process, from initial enquiry to settlement of final account.

We are pleased to recommend and include DCM as a preferred supplier for future potential projects of this nature.

Architect, CT Architects

”

## Key Specifications

- Soft and natural looking
- Easy installation
- No muddy feet
- Impact absorbing
- Low maintenance
- Constructed with drainage holes to stay dry underfoot

## RECOMMENDED BUILD UP TO CREATE A PERMEABLE SURFACE

- 1 Artificial grass layer
- 2 25mm SBR rubber shockpad
- 3 100-300mm MOT type 1/3 dependent on ground conditions\*
- 4 Geotextile
- 5 Edge options; Rubber, Concrete, Aluminium, Timber

\*Option for 50mm binder course macadam under the shockpad, dependent on ground conditions
