

ARTIFICIAL LANDSCAPE GRASS

...for gardens, patios, poolsides, and parks

Artificial Landscape Grass provides a natural, 'just-mown' all green looking surface for lawns and patios.

Artificial Grass is permeable, ensuring lawns remain clean and easy to maintain year round.

The grass is designed with the highest quality polymers to produce yarns that give the most durable and realistic-looking finish.

“

We are delighted with the work carried out by DCM. The installers remained polite, courteous and worked very hard.

We received prompt responses at every stage of the procurement process, from initial enquiry to settlement of the final account.

We are pleased to recommend and include DCM as a preferred supplier for future potential projects of this nature.

Architect, CT Architects

”

Key Specifications

- Soft and natural looking
- Easy installation
- No muddy feet
- Impact absorbing
- Low maintenance
- Constructed with drainage to stay dry underfoot

RECOMMENDED BUILD UP TO CREATE A PERMEABLE SURFACE:

Artificial Grass layer

25mm SBR base course*

Min 150mm MOT type 1 dependent on ground conditions

Geotextile membrane

Edge options: Rubber, Concrete, Aluminium

*Standard build up. Depths may vary depending on use / sub-base.
