

COLOURED GRASS

...for indoor and outdoor use

Coloured grass is ideal for sport pitches, children's playgrounds, golf driving ranges, landscaping and commercial flooring.

Logo's, slogans and designs can be tufted in fine detail using a wide range of yarn, standard colours and tints.

If the logo mat has to meet the same specification as the surrounding synthetic grass, we can determine the pile height (10-60mm), gauge and stitch rate, so the logo mat will have the same density. The end result will look like a seamless surface!

“ Having worked with DCM over a number of years and on a number of projects, I have found them to be an excellent company to work with.

The final product is always of an exceptional quality that we at AMV demand.

Project Manager, AMV Playgrounds

”

Key Specifications

- No glue joints
- Optimum detail exposure
- Unlimited shape possibilities
- Wide range of colours and yarn
- Up to 9x 4m in one piece
- Strong and durable

RECOMMENDED BUILD UP TO CREATE A PERMEABLE SURFACE

- 1 Artificial grass layer
- 2 25mm SBR rubber shockpad
- 3 100-300mm MOT type 1/3 dependent on ground conditions*
- 4 Geotextile
- 5 Edge options; Rubber, Concrete, Aluminium, Timber

*Option for 50mm binder course macadam under the shockpad, dependent on ground conditions
